

Loftet

Technical description

Rotemannavägen 10, 145 57 Norsborg

Description

Studio for rehearsals, concerts and conferences - Loftet can be used for many things. This was once a hayloft, which gives it its unique character with vaulted ceilings, wooden floors and pillars along side the walls. Several music videos, TV recordings and commercials have been recorded here and it is a popular party and conference venue.

Loftet is possible to rent with a stand, projector, stage and a simpler sound system and light rig. Outside Loftet there is a foyer with a small kitchen and toilets. Guest parking is available nearby and of course we have free Wi-Fi.
